

2025

PROPERTY TAX SUMMARY REPORT

From the office of Wes Cornelius, Chelan County Assessor

Committed to Honesty, Service & Excellence

THIS PAGE INTENTIONALLY LEFT BLANK

What we do

Our office is responsible for determining the value of all taxable real and personal property in the county on a fair and equitable basis, along with maintaining accurate and accessible property information, providing timely and accurate assessments for tax purposes, and providing a detailed parcel map showing all parcels within the **county**. **The Assessor's Office updates all property values annually according to market sales and continues to do physical inspections of every property on a 4-year cycle.**

Information such as parcel and sales, ownership, GIS maps, monthly sales reports, exemptions, and assessed valuations for all property within the county can be obtained online through the assessor's website at www.co.chelan.wa.us/assessor or by calling the assessor's office at (509) 667-6365 during business hours (Monday through Friday, 8 a.m. to 5 p.m., with the exception of holidays).

Why we do it

The assessor is required by state law to appraise real property at 100% of its true and fair market value and to statistically update assessed values annually according to the highest and best use of the property, unless the use of the property qualifies for a special exemption program and is approved for such use by either the assessor or the state department of revenue. Assessed values are affected by the local real estate market, and the real estate market is directly influenced by supply and demand. There is no limit on how much assessed property value can increase or decrease annually. Although you may not have made any improvements to your home, your value continues to follow the market activity in your neighborhood. Every year, we compare sale prices to assessed values. If assessed values are significantly different from sale prices, we will apply a market adjustment factor to that neighborhood of properties (market area) in order to bring the assessed value closer to sales prices.

Our staff

Assessor Wes Cornelius

Chief Deputy Assessor Erin Fonville

Admin. Asst. & Senior/Disabled Exemption Specialist Anna Kirkpatrick

Senior Abstractor/GIS Technician/Mobile Home Specialist Laura Ortega

Abstractor/GIS Technician Peggy Fenhaus

Abstractor/GIS Technician Emily Garcia

Levy Administrator/Personal Property Specialist Stacy Wuolle

Chief Appraiser Josh Hepburn

Analyst/Commercial Appraiser John Ross

Senior Appraiser/Analyst/Trainer Zach Baker

Real Property Appraiser John Campbell

A word about your 2025 property taxes

The assessor is required by state law to appraise all real property at 100% of its true and fair market value and to statistically update assessed values annually according to the highest and best use of the property, unless the use of the property qualifies for a special exemption program and is approved for such use by either the assessor or the state department of revenue. Assessed values are affected by the local real estate market, and the real estate market is directly influenced by supply and demand. There is no limit on how much assessed property value can increase or decrease annually.

One thing to keep in mind as you look at the assessed value on your 2025 property tax statement from the County Treasurer is that our assessment process is always a year behind. The amount of taxes you pay in 2025 is based on the assessed value as of January 1, 2024. This is the assessed value that was on the Notice of Value mailed out from our office on July 5, 2024. The 2024 assessment value is derived by **analyzing what we call "arm's length" real estate sales** predominately from 2023.

Make sure to check out our Frequently Asked Questions (FAQ) section on our website at <https://www.co.chelan.wa.us/assessor> for more great information on all that we do in the assessor's office.

2025 Community Meetings

Do you ever wonder how the assessor appraises your property and determines the fair market value for property tax assessment? Join Wes Cornelius, Chelan County Assessor, and his staff at one of the four community meetings that have been scheduled throughout the county this spring to discover how the assessment process works.

MARCH Entiat & North Wenatchee Wednesday MARCH 26th 6pm-7pm Entiat Grange Hall	APRIL Leavenworth & Lake Wenatchee Wednesday APRIL 23rd 6pm-7pm Lake Wenatchee FD #9

Jr. Taxing Districts	\$9,236,133
Schools	\$41,205,100
TOTAL:	\$166,395,760

Property taxes on a \$400,000 home

The reality of it is, your home value didn't stay at just \$400,000 over the last 4 years. You can see below that most levy rates have gone down, but if the rate of increase in your home value outpaces the rate of decline in your levy rate, then your taxes are going up.

Area	2022	2023	2024	2025	% change (4 yr)
Lake Wenatchee/Plain area	\$3,701	\$3,105	\$2,924	\$3,222	-12.94%
City of Leavenworth	\$3,775	\$3,215	\$2,978	\$3,098	-17.94%
Peshastin/Dryden area	\$3,580	\$3,035	\$2,851	\$2,998	-16.26%
City of Cashmere	\$4,040	\$3,691	\$3,555	\$3,363	-16.77%
Sunnyslope area	\$3,859	\$3,483	\$3,301	\$3,191	-17.31%
City of Wenatchee	\$3,901	\$3,530	\$3,352	\$3,230	-17.21%
Malaga area	\$3,846	\$3,471	\$3,288	\$3,179	-17.34%
City of Entiat	\$3,959	\$3,319	\$3,043	\$3,425	-13.48%
City of Chelan	\$3,449	\$2,877	\$2,690	\$2,790	-19.12%
Manson area	\$3,448	\$2,946	\$2,693	\$3,004	-12.88%

Levy Rates Over the Last 4 years

There are only 2 reasons for the levy rates to go down:

1. Increase in assessed value of that area, or
2. Taxing districts taking a reduction in their dollars requested from the previous year, while your value remained unchanged (never seen this happen)

Area	TCA	2022	2023	2024	2025	% change (4 yr)	% change (from last yr)
Lake Wenatchee/Plain	29	9.2517	7.7636	7.3093	8.0543	-12.94%	10.19%
City of Leavenworth	606	9.4387	8.0365	7.4447	7.745	-17.94%	4.03%
Peshastin/Dryden area	53	8.9512	7.5875	7.1270	7.4957	-16.26%	5.17%
City of Cashmere	100	10.1012	9.2286	8.8884	8.4068	-16.77%	-5.42%
Sunnyslope area	74	9.6469	8.707	8.2518	7.9775	-17.31%	-3.32%

Assessment Calendar

Date	Description
January 1	Real and personal property is subject to taxation and valuation for assessment purposes as of this date.
January 15	Certification of Levies.
February 15	Property tax statement for the 2025 Tax Year (2024 Assessment Year) are mailed out and property taxes can be paid after this date to the County Treasurer.
April 30	Personal property listings due.
April 30	First half property taxes are due to the County Treasurer.
May 31	End of revaluation cycle for assessment purposes.
May 31	Notices of Values are mailed out.
July 1	Filing deadline for Board of Equalization petitions.*
July 15	Board of Equalization meets in open session.
August 1	Most taxing district boundaries must be established.
August 31	Last day assessor can add new construction value.
October 1	Last day to file for exemption on historic property.
October 31	Second half property taxes are due to the County Treasurer.
November 30	City and other taxing districts budgets are due to the County Legislative Authority.
December 15	Taxing certifications and the amount levied per taxing district are due to the County Assessor by the County Legislative Authority.
*Dependent on Mailing Date of Notice of Values.	

Assessment Process

There are numerous things to keep in mind when understanding how the Assessor appraises property:

1. In Washington State, the Assessor is required to value property at 100% of true and fair market value.
2. There are three standard approaches to value which are cost, sales and income (commercial property). We may use a combination of the approaches to assess property.
3. We use a process called Mass Appraisal, which is different than your typical Fee Appraisal you would get when buying/selling/refinancing your property.
4. We cannot assign a market adjustment (increase or decrease) to your property that is different than all of the other properties in your market area.
5. It is against the law to set an assessed value, independent of the rest of the market area, at its sale price. This is referred to as "shooting the sale".
6. Your market area may be as small as a group of homes in a specified area (subdivision, waterfront, etc.) or a much larger area, both defined by how the market is reacting to sales in that area.
7. You have one value on your property, but it is cumulative of the land component and any improvements (structures, commercial ag root stock, ag irrigation systems) on the property.
8. Physical inspections of property occur every 4 years, whereas statistical analysis of market conditions and the accompanying adjustments are done annually. All taxable properties in Chelan County have been revalued annually since 2010.
9. **All sales used in the market analysis must be good, closed, arm's length transactions.** Department of Revenue (DOR) stipulates the types of sales that can and cannot be used in the analysis. For example, a sale between relatives, bankruptcy, sheriff sales, tax deeds, gift deeds, Quit Claim deeds, forced sales, short sales, deeds in lieu of foreclosure, bank sales, sale or acquisition of exempt property, and classified land sales under RCW 84.34, cannot be **used as they are not considered arm's length transactions.**
10. There are a few exceptions to the sales used in the market analysis. Even though we are not supposed to use foreclosed properties in our sales analysis, we realize that if there are a substantial number of foreclosures in one area, we cannot ignore the impact this has on the market. These foreclosed properties may be setting the new market value, but usually will recover within a year or so.
11. The sales ratio is the Assessed Value/Sales Price.

12. The assessed value is always as of January 1 of the assessment year for the following tax year, so for example, assessed values as of January 1, 2025 are what you will pay property taxes on in 2026.
13. A market adjustment is simply what the market will bear above and beyond the base construction cost of a new home. The raw cost of land plus new construction, or replacement cost (less depreciation) compared to the market value. The difference is the market adjustment, or influence. Think of this the same as the developer, or builder profit, but will fluctuate from year to year depending on the real estate market.

Mass Appraisal Process

1. Land is valued as if vacant. We typically have enough sales to determine whether land values need to be adjusted. If we do not have enough sales in a given market area, we typically will not change the value, but will continue to monitor for the following year. The law allows a look-back up to 5 years for market trends. The sales volume in Chelan County has been high enough that there are only a couple of areas where trending has been used; Stehekin being one.
2. In determining the land value, we take the market area, draw out all of the **vacant land sales that have not been "coded out"** (identified with a DOR Ratio Code), and then compare those sales prices against those properties prior years assessed value. This creates a list of sales ratios (Assessed Value/Sale Price).
3. The list of sales ratios gives us a range. The real estate market is made up of buyers and sellers with individual ideas on what the true value of a property is **(it's worth exactly what someone is willing to pay for it), which can lead to different prices for two identical properties, side by side, in the same time frame. The market is driven by buyer's preferences and desires, not by science.**
4. With this list of sales ratios, we order them highest to lowest and make a market adjustment so that the average ratio of all sales does not exceed 100%. Typically, this only pushes 1 or 2 of the numerous sales over 100%. (See #9 in prior section)
5. That market adjustment for land (in % form) is now added to all properties in that defined market area. All properties, regardless of whether they sold or not, receive the same adjustment.
6. Improvements/structures are first valued through the Marshall & Swift manual, which is a national cost manual used by almost all industries related to building and construction, appraisal, etc.
7. The cost approach builds and values the structure as a replacement cost new less depreciation (RCN-D). The initial construction quality is a basis for the replacement cost new. The depreciation is a combination of age and condition of the property. Both the quality and condition of the property are considered

“appraiser opinion”. We also use local quality and condition checklists for consistency throughout the county.

8. Once we have the RCN-D, we consider that the base construction cost. However, a home does not sell for simply the cost of construction; therefore, we look at the sales in the market area for market adjustments.
9. We now look at improved sales in that same market area, and within that same group of sales. The exact same process is used for this analysis as was used for the land sales – ordering the ratios (assessed/sale) and determining the market adjustments. Any market adjustments at this point will be added or deducted from the Improvement value, since the land value has already been set to market.
10. We **don’t use comparable** properties to set your assessed value. Instead we conduct a sales analysis. This is where fee appraisal work and our mass appraisal work diverge. We do not have the luxury of using exact (or very similar) homes across the county as comparables. We have to stay within the market area and do our analysis on a much larger scale. A fee appraiser will use comparables from all over, but then add or subtract adjustments differently on each property based on their current market area. Although our methods are different, unless we have incorrect details on the improvements, we are typically right on par with the appraisers and realtors market analysis.

Frequently Asked Questions

Q: Are there limits on how much a property’s assessed value can change?

A: No. There are no limits on increases or decreases in assessed property values. This value is based on the requirement under state law that assessed values be established at 100% of fair market value on January 1st. While assessed values remain the same until the next year, market values continue to fluctuate throughout the year.

Q: If property values have no limit, what protects property owners from limitless taxes?

A: Your taxes are calculated based on the budgets submitted by jurisdictions (taxing districts) that provide you services. These budgets are prepared independently from property values and are limited to a 1% increase from one year to the next. This limit does not apply to taxes from voter-approved bonds and special levies. Property values determine the share of these budgets that individual property owners will pay.

Q: I have made no improvements to my home, why did my assessed value increase?

A: The law requires the Assessor's Office to value property at 100% of the true and fair market value. Assessed values are affected by the local real estate market and the real estate market is directly influenced by supply and demand. This affects the cost of materials, labor, and other incidentals required to build, market, and sell a home. We are required to conduct an annual statistical update of assessed values based on real estate transactions. Although you may have not made any improvements to your home, your value continues to follow the market activity in your neighborhood.

Q: Are there programs that can lower my property value and taxes?

A: There are special programs that can reduce the taxable value of property for qualifying seniors, disabled persons, historical property, single family remodels and lands in farm and forest production. Additional information about these programs can be found on our website under the Exemptions Section or by contacting our office.

Q: Who do I contact with questions regarding my assessed value?

A: We encourage you to talk to our office to review your valuation any time you have a question or concern regarding your assessed property value. You can contact our office at (509) 667-6365 or send us an email at assessor@co.chelan.wa.us.

NOTE: To decipher which taxing districts comprise each tax code area we have added a legend with the district code in parenthesis (eg. CA) next to each taxing district. The following tax districts (which we do not currently levy for) are:

SD: Sewer District	WD3: Peshastin Water District
WD1: Three Lakes Water District	WD4: Alpine Water District
WD2: Malaga Water District	WD5: Lake Wen. Water District
