## **Review Criteria**

This regulation was evaluated in accordance with Chelan County Code Section 14.13.040 Development Regulation Amendment evaluation criteria and Chelan County Code Section 14.14.047 Amendment review criteria for comprehensive plan text changes. These criteria determine the process for approval, modification, or denial of regulation amendment applications and text amendments to county-adopted city comprehensive plans.

## 1. The amendment is necessary to resolve a public land use issue or problem.

**Finding**: In the 1997 interlocal planning MOU, Chelan County establishes policies with the City of Leavenworth regarding land use regulations within its Urban Growth Area (UGA). Chelan County agrees to adopt the city's "land use regulations, development standards and land use designations for the city's UGA." The County also agrees to implement the city's "street, street lighting, curb, gutter and sidewalk design standards" within the UGA.

GMA requires comprehensive planning for counties and cities designated under its jurisdiction. RCW 36.70A.100 details that each city's comprehensive plan must be coordinated and consistent with "other counties or cities with which the county or city has, in part, common border or related regional issues".

Chelan County has not adopted relevant land use changes and comprehensive plan amendments for the City of Leavenworth's UGA since its last major update in 2022. Adoption of this ordinance will bring the County into alignment with the agreement outlined in the MOU and relevant state planning policies.

# 2. The amendment is consistent with goals of the Growth Management Act, Chapter 36.70A RCW.

**Finding**: The GMA planning goals include but are not limited to the following:

- (1) Urban growth. Encourage development in urban areas where adequate public facilities and services exist or can be provided in an efficient manner.
- (2) Reduce sprawl. Reduce the inappropriate conversion of undeveloped land into sprawling, low density development.
- (3) Housing. Encourage the availability of affordable housing to all economic segments of the population of this state, promote a variety of residential densities and housing types, and encourage preservation of existing housing stock.
- (4) Permits. Applications for both state and local government permits should be processed in a timely and fair manner to ensure predictability.
- (5) Environment. Protect the environment and enhance the state's high quality of life, including air and water quality, and the availability of water.

The adoption of the city's comprehensive plan amendments and land use regulations within the UGA is consistent with the first two GMA goals, to encourage development in urban areas and to reduce sprawl. Housing related amendments included for adoption promote the variety of residential densities in housing types within the UGA. Other land use updates encourage economic development consistent with the adopted comprehensive plan. Updating standards within the UGA will also support the timely review and processing of development applications to ensure predictability.

3. The amendment complies with or supports comprehensive plan goals and policies and/or county-wide planning policies, or how amendment of the comprehensive plans' goals or policies is supported by changing conditions or state or federal mandates.

**Finding:** The City of Leavenworth has reviewed and found the proposed amendments consistent with the City's Comprehensive Plan goals and policies. The County-wide Planning Policies support the use of the City regulations within the UGAs and adoption of city comprehensive plan amendments.

 The proposed amendment does not adversely affect lands designated as resource lands of long-term commercial significance or critical areas in ways that cannot be mitigated.

**Finding:** The proposed amendments do not change resource lands or critical area regulations which would be reviewed based on the site-specific development at the time of future permit.

5. The amendment is based on sound land use planning practices and would further the general public health, safety and welfare. The comprehensive plan amendment would serve the interests of not only the applicant, but the public as a whole, including health, safety, or welfare.

**Finding:** The proposed amendments are the result of appropriate planning processes to reflect the community desire for development.

## **Procedural Requirements**

Appropriate City procedures were followed for the amendment proposed for County adoption. Chelan

County is performing its own hearing notice for this amendment. The public process for this 202e change incorporated a wide range of public engagement efforts that were held by the City of Leavenworth and continued by Chelan County. The City of Leavenworth sent notices to members of the community within the city limits and UGA and beyond by inclusion in utility billings, media reports, radio ads, etc.

## **CONCLUSIONS OF LAW**

- 1. The amendment to the Chelan County development regulations is consistent with the requirements of the Growth Management Act (RCW 36.70A), Chelan County Comprehensive Plan and County-Wide Planning Policies.
- 2. The amendment is necessary to address a public land use issue or problem.
- 3. The amendment does not adversely affect designated resource lands of long-term commercial significance or designated critical areas in ways that cannot be mitigated.
- 4. Reviewing agencies and the general public were given an opportunity to comment on the proposed amendment.
- 5. The amendment is consistent with Chelan County Code Title 14 Development Permit Procedures and Administration.
- 6. The requirements of RCW 43.21C, the State Environmental Policy Act and WAC 197-11 SEPA Rules have been satisfied.
- 7. The adoption of this amendment is in the best interest of the public and furthers the health, safety, and welfare of the citizens of Chelan County.

<u>Eighteen Thirteen</u> kinds of open space priority resources are identified in the Public Benefit Rating System for classification as open space. Detailed definitions and criteria for classification have been developed for each priority resource.

- b. Have an official enhancement plan developed in cooperation with the Natural Resources Conservation Service, the U.S. Fish and Wildlife Service, and/or the Department of Fish and Wildlife, which contains clear steps and timelines for completion.
- c. Eligible lands will be reviewed at the time projected for completion of the enhancement work and rerated for open space classification if the enhancement plan has not been completed. The Chelan County Community Development Department has discretion to allow extensions for completing enhancement work only with a written enhancement plan revision by the agency which developed the original plan.

## ii. Surface Water Quality Buffer Area-II: 3 or 5 points

Definition: A riparian or wetland buffer width of at least twice that required by the Chelan County Critical Areas Ordinance or Shoreline Master Program.

Data Source: Catalogue of Washington Streams, Chelan County Shoreline Master Program, Chelan County Critical Areas Ordinance, and National Wetlands Inventory Maps.

Three (3) additional points are awarded for buffers no less than two times the buffer required by the applicable ordinance, and five (5) additional points are awarded for buffers no less than three times the buffer required by the applicable ordinance. Sites cannot qualify for points under both the priority resource and the bonus category.

## iii. Contiguous Parcels Under Separate Ownership: 2 Points

Definition: Contiguous parcels of land with the same open space resources, regardless of whether under the same ownership or not, are eligible for treatment as a single parcel if open space classification is sought under the same application. "Contiguous parcels" are defined as parcels abutting each other without any significant natural or man-made barrier separating them or parcels abutting a publicly-owned open space but not necessarily abutting each other without any significant natural or man-made barriers separating the publicly owned open space and the parcels seeking open space classification or each other in the event that they do abut.

Data Source: Not applicable

Eligibility: Applications treated as contiguous parcels shall include the requirement to pay only a single application fee and, the requirement that the the total area of all parcels combined must equal or exceed any required minimum (rather than each parcel being required to meet such minimums). Parcels given this contiguous parcels bonus must all be accepted under identical terms and conditions of access, easements, and restrictions. Individual parcels may be withdrawn from open space classification consistent with all applicable rules and regulations without affecting the continued eligibility of all other parcels accepted under the same application, provided that the combined area of the parcels remaining in open space classification must equal or exceed any minimum size requirement established in the PBRS and that access to the remaining parcels is not affected. Contiguous parcels must meet the following conditions:

- a. The application must include two or more parcels.
- b. The owners of parcels included in the application must agree to identical terms and conditions for inclusions in the program.

## iv. Conservation/Historic Easement: 8 5 Points

Definition: An easement that restricts, in perpetuity, further potential development or other uses of a property and which may include a requirement for native growth protection.

Process: A conservation or historic easement is a legal means by which a landowner can voluntarily set permanent limitations on the future use of land thus protecting the land's particular attributes. The easement is conveyed to a qualifying conservation organization or public agency, but the land remains in private ownership and the owner retains full control over public access. Donation of a conservation or historic easement may also qualify as a charitable deduction on federal income, estate, or gift taxes.

Provisions: A conservation easement shall include those interests or rights authorized to be held or acquired by RCW 84.34.210 or RCW 64.04.130. Among other things, a landowner could convey his rights to harvest timber, graze the property, subdivide, develop, construct additional roads, hunt, excavate,

etc. Conservation easements, in some cases, have been applied to land which is developed, but the easement provides for the retention of a specific natural area that contains an important resource or habitat.

Historic easements apply to historically important lands and to historic structures that are listed on the National Register of Historic Places (or are located in and contribute to the historic significance of a National Register Historic District). The easement typically results in a limitation on land development or structure modification which will ensure the ongoing preservation of a historic parcel of land or a historic structure and its setting.

Generally, the organization or agency receiving the easement may not conduct any development or management activities on the land, but usually has only the rights to inspect the property periodically to ensure that the terms of the easement are carried out and to enforce the easement in Court if necessary.

## **DE**. Super Bonus Category (10075% Reduction)

The following category contributes to or in some way enhances the public benefit of the priority resources. Where applicable, the priority resource qualifications specify if they can be combined with other similar priority resources.

i. At least one high priority resource and public access and a conservation easement.

#### **EF. Public Access**

The following category contributes to or in some way enhances the public benefit of the priority resources. Where applicable, the priority resource qualifications specify if they can be combined with other similar priority resources.

i. While public access is not required for most categories of open space, sSome degree of access is encouraged required for all lands enrolled in the Open Space Tax Program unless access would be harmful to the resource, such as sensitive plants or animals. The kind of public access proposed shall be stated on the application request, e.g. a certain seasonal period, unlimited, signed nature trail, etc. When public access is proposed, it may be made a condition of approval by the Board of Chelan County Commissioners as provided in RCW 84.34.037.

## Types of Access:

- a. Unlimited Public Access: <u>8 5</u> Points: This provision provides for year-round access by any member of the public without specialized interest in the resource.
- b. Limited Public Access (due to resource sensitivity): § 3 Points: When access to a parcel is to be limited due to the sensitive nature of the resource, the access shall be provided only to appropriate user groups. The activities of those user groups shall generally be limited to scientific, educational, or research purposes. Those appropriate user groups may include but not be limited to university researchers, Audubon Society, Nature Conservancy, Native Plant Society, or other organizations with specialized interest in the resource.

- c. Limited Public Access (seasonal and/or upon special arrangements): 4 3Points: Access to the public is allowed, with or without special arrangements with the property <u>owner</u>, for any period of less than the full year (seasonal access).
- d. No Public Access: 0 Points: No public access is allowed or Members Only Access which is restricted at all times to members of the organization utilizing the land.
- ii. Where public access is provided, access points shall be awarded according to physical accessibility as well as owner willingness for public access. No access points shall be awarded if the property is not reasonably accessible.

For properties where public access is provided, the County may furnish and maintain a standardized sign or require the applicant to furnish and maintain a standardized sign designating the property as part of the open space tax program.

iii. Limitations of Public Access. As a condition of granting open space classification, the legislative body may not require public access on land classified under RCW84.34.020(1)(b)(iii) for the purpose of promoting conservation of wetlands.
