AQUIFER RECHARGE AREA DISCLOSURE SECTION

Pursuant to Chelan County Code (CCC), Section 11.82.030: An applicant seeking to develop property which requires a development permit, not otherwise exempted from the requirements of this chapter, shall submit with the application this certified statement, which lists criteria (5)(A) through (5)(D), (6), and (7) as set forth in CCC, Section 11.82.040 and indicate whether the criteria apply or do not apply to the site or development.

*****Any development application that fails to contain this statement or fails to indicate whether any one of the criteria apply or do not apply shall be rejected and only accepted upon resubmission of the completed statement. "Unknown" or similar responses will not be accepted.*****

If the administrator determines the development meets one or more of criteria (1) through (4) of CCC, Section 11.82.040, or if the administrator determines the development meets criterion (5) of CCC, Section 11.82.040 and the applicant indicates the development meets one or more of criteria (5)(A) through (5)(D), or if the applicant indicates the development meets one or more of criteria (6) or (7) of CCC, Section 11.82.040, the development shall require a hydrogeologic evaluation as described in CCC, Section 11.82.050. If the development has a medium or high vulnerability rating, the development shall be subject to the performance standards of CCC, Section 11.82.060.

If the administrator determines that criteria (1) through (5) of CCC, Section 11.82.040 do not apply to the development and an applicant's statement asserts that criteria (6) and (7) of CCC, Section 11.82.040 do not apply to the development, the administrator will accept the statement and proceed with the permitting or approval process, except if the administrator has or obtains information prior to the permit or approval being finalized, which clearly establishes the applicant's statement is incorrect. In which case, the applicant will be advised in writing of the inconsistent information and advised to either (A) provide an amended statement adding the evaluation criteria as being applicable and complete a hydrogeologic evaluation of the development pursuant to CCC, Section 11.82.050, or (B) present sufficient countering information clearly establishing that the basis for the department's concern is incorrect. If the applicant selects to proceed under (B), upon receipt of the applicant's information, the administrator shall review the information and obtain whatever additional assistance may be required to resolve the issue. The final determination as to whether a determination of vulnerability is required shall be made by the administrator.

EVALUATION CRITERIA:

The applicant is required to determine the vulnerability rating for any development permit, not otherwise exempted, and meets any one of the criteria below. Please check the boxes that apply to your project:

The site contains highly permeable soils, which include types 1, 2 and 3 under WAC 246-272A-0220, Table V or soils mapped by US Department of Agriculture Natural Resources Conservation Service as having saturated hydraulic conductivity (Ksat) classification of Moderately High or identified as Hydrologic Soil Group "A" and:
 - A. The site will be utilized for hazardous substance (defined in Chapter 70.105 RCW) processing, storage or handling in applications or quantities larger than is typical of household use; or
 - B. The site is currently or will be utilized for commercial or industrial activities listed in the US Environmental Protection Agency's Potential Sources of Drinking Water Contamination Index that can be found in Appendix A to Department of Ecology's Critical Aquifer Recharge Area Guidance Document; or
 - C. The development involves a major subdivision and includes present or future plans to construct dwelling units that will not be connected to a public sewer system and any of the lots are less than one net acre in size; or
 - D. The proposed commercial and industrial site is not on a public sewer system and the main structure exceeds four thousand square feet;
- 6. The proposed use is as a commercial feedlot, landfill, junkyard, salvage yard, or auto wrecking yard, or
